

SPARKLES.

lyric & music: Niklas Rapp

1.

I standin' on the roadside eat my meadowsweet
I look at you, you can not see,
can you see anything at all?
I am the moose in the verge
that standing still at the highway 69
You don't have the time to look around

BRIDGE:

The nationwide depression here
Snow fell down on the ground again, this year, again
The dark subsid, no one can dispel the gloom around
There is no hope, until the source of light comes to town

Christmastide is here to give you the peace you need
please don't close your eyes, when it sparkles for you

CHORUS

I remember you
Do you remember me
I do remember you

2.

Why are you in such hurry, do you even know what you aiming for?
Times flies and you have every reason to excuse now
Don't take anything for granted, make the big in small,
soon you sit alone,
viewing paled photos from today, but that's just a filter

BRIDGE:

CHORUS

I remember you
Do you remember you
I do remember you

OUTRO:

Do not just try
It's time to act
Not just imagine
Any day is today
And the days after thee
Stop feel sorry
There is hope and wisdom
Share you the world

I will remember you
I will remember you
I will remember you
