

MIRACLES.

lyric & music: Niklas Rapp

1.

I believe in miracles, stop chasing me for that
Finally know what to say
You can't afford me so don't even try to bet
I will not ever stay

2.

I've been weak, been seduced and I lived in temptation
the short path isn't real
They say good people don't walk in shoal, it's the creation
from my point of view I just see, your heel

BRYGGA:

Like driftwood I followed the waves lastly I reached out
Do you remember where I got lost, I was the man in the boat on
high seas

REFR:

Poisoned destructive to find a solution
If you reach out there someday, you'll see
Finally we get what deserve so
time to pick gold when the world is ahead

(Please stay, I looking for something I don't know how to
save, strange how it is when you answer inside)

3.

I believe in miracles, I believed in things you said
It still dig in my head
I've been in life support state for the past few years
just listen to the music of spheres

BRYGGA:

I no longer struggle explain for you to define,
no guts, no glory, I'm here to shine

REFR:

Poisoned destructive to find a solution
If you reach out there someday, you'll see
Finally we get what deserve so
time to pick gold when the world is ahead

(Please stay, I looking for something I don't know how to
save, strange how it is when you got the answer inside)

4.

I believe in miracles, I believe in you
Please world be kind to one other
